

## All The Gods Against Me: The Story of Clarence Manning

A dark and visionary tale of fantasy and horror. Not for the faint of heart! A highly original novel with a great premise! There is no beauty in the world. Or so Clarence Manning believes. Yet on the night wind he can smell rose petals, sees them falling from the sky. When three sentient beings invade his life, Clarence's worldview begins to change. Trujillo, the Blue God, matches Clarence's apathy with divine, razor-like arrogance. Lenore, a god of yellow light, bestows the most beautiful, loving companion. And Donatello, the Red God, offers loyalty and friendship in a way he has never experienced. But Clarence wants no part of divine intervention, and he rebukes the gods with a vengeance. A sinister influence has also laid claim to his life, the Beast, a creature of shadow that has been with him since he was a boy. When Clarence confronts all four manifestations, he unleashes a series of events that could be catastrophic for the gods, mankind, and the very fabric of the universe. A must read for fans of the dark, disturbing tale in the tradition of 1984! Authors note: The Divinity Series comprises the story arc of the child, Divinity, beginning with All The Gods Against Me and continuing on with Calliope and Worlds Away. It is a series of darkness to light, beginning with the raw, adult-themed All The Gods Against Me, and becoming more wholesome and fantasy-oriented by Worlds Away. You can read the complete cycle of darkness to and light in order or as stand alones.

Clarence Manning is a working stiff and a borderline alcoholic, whose only solace is gazing out his window at mankind with a drink in his hand.
