

Beyond Worlds End (Bedlams Bard series Book 4)

THIS IS YOUR SOUL ON DRUGS After the events chronicled in Bedlams Bard, world-saving bard and magician Eric Banyon moves into his new New York apartment hoping to settle down to the quiet life. No such luck: his building is a safe-house for a group of occultist Guardians protecting the city from supernatural evil. And there's a new evil for them to guard against... When unethical drug researchers discover that they can induce amazing mental powers using psychotropic drugs, they begin planning to raise a drug-enslaved army of mercenaries and grow very, very rich. But this gets the attention of Aerune mac Audelaine, lord of the dark Unseleighe Sidney, who hopes to use the drugs to break through to the human world and feed on the suffering there. Both plans will bring terror to the world-and both are threatened by the very existence of Eric Banyon. With his possibly loyal companions-a beautiful elven half-breed and a gargoyle Eric heads for a three-way battle of wizardry that will determine Gotham's fate-and his own. At the publishers request, this title is sold without DRM (Digital Rights Management). Mercedes Lackey, author of the bestselling Heralds of Valdemar and Bardic Voices series, began life as a child and has been attempting to rectify that error ever since. Named for actress Mercedes McCambridge, she has been trying with no success to get the Benz automobile authorities to recognize the natural link between her name and theirs, and offer her the use of an M100 or some variety of high-end sports car for gratis. This, too, has had a distinct lack of success. Other than writing she can be found at various times prying the talons of the birds of prey she is attempting to nurse back to health out of her hands, endangering her vision by creating various forms of Art Beadwork, and cross-stitching dragons, gryphons, and other semi-mythological

fauna. At the moment, her hair is red, her favorite color is green, and she is covered by various members of her flock of pet parrots, cockatoos and macaws, all of which are trying to help her type8shgalal-akejbejks9ife. Rosemary Edghill, after holding the usual array of Weird Writer Jobs, including freelance graphic designer and vampire killer, settled down to a career as a full-time writer. She has written three books in the Twelve Treasures series, urban fantasies about elves and subways, as well as books in genres ranging from romance to mystery. She has also collaborated with such masters of fantasy as Marion Zimmer Bradley and Andre Norton. Of this collaboration, Mercedes Lackey writes, I needed a new partner for our Bedlam Bards series ... Rosemary was the only possible writer who was sharp enough!
