

## Breaking Angelina: a Paranormal Investigation novel #2 (Paranormal Investigations series)

Shes the Beauty. Can the Beast break her curse before the monsters break her? But you said you'd take an ... alternate form of payment. Didn't you? Cold, hard cash, angel. Wait, I'll pay you in other ways. She grips my sleeve, panic written across her face. My heart wrenches, and I pause, kicking myself for being so soft even as I do so. And how do you expect to do that? Cheeks flushing prettily, she motions me closer to whisper in my ear. Today, all day, I'll do whatever you want. ~ \* ~ \* ~ I've never told anyone my darkest secret. I can feel people's emotions, see their auras, and soothe their pain with a word. I don't really know what that makes me. An empath? A psychic? Or am I just a freak? But that's not the worst of it. A demon whispers in my mind. At night, it murmurs lies in my ears; by day, it manipulates everything I see, so I no longer know what's real. It uses my own powers against me, controlling my emotions. I'm living a nightmare, but I can't wake up to escape. The demon threatens to destroy everything I care about, and now it wants me to kidnap and murder a paranormal creature. Refusal means excruciating pain or sleepwalking into oncoming traffic ... again. Or worse, it will hurt someone I love. I don't dare refuse, even if I have to steal from my friends, sell my body, or ruin my college career. Anything to stop the feeling of its claws scraping the insides of my skull. That's when I hired the Hunter, a wolf man with snowy white wings from a magical world, to help me. But he has secrets of his own - an honorable man who has misplaced his honor, a twisted soul with no heart left to care. If I make a deal with the devil, what price do I have to pay?
