

# The 2013 Stem Cells Discussion Forum: Working Towards Clinical Application (Euroscicon Meeting Reports)

This discussion forum was part of Euroscicon's 2013 Stem Cell Event Trilogy and took place in London on 6 June 2013. The event, which was attended by delegates from research and healthcare sectors, focused on clinical applications of stem cell therapies and covered a broad range of topics. These encompassed recent clinical advancements in the field of stem cell therapeutics, as well as the manufacturing processes and accompanying regulatory requirements encountered by researchers. Following a morning session of short talks, delegates were invited to participate in round table discussions and question and answer session with a panel of experts.

This meeting sets out to bring researchers together to discuss the latest This event is part of the 2013 Euroscicon Stem Cell Trilogy.
