

Developments in Pressure Equipment: Where to Next? (ImechE Event Publications)

There have been many developments in pressure equipment technology over the last 30 years culminating in the development of new standards and legislation. The aim of this collection of papers is not only to document views of leading professionals in various fields of pressure equipment technology, but also to look into the future and identify the next areas for development. *Developments in Pressure Equipment - Where to Next?* brings together international authors to provide an invaluable and comprehensive insight into the latest innovations in the field. Topics include: Legislation and standardization Design and materials Manufacture and inspection Integrity and life assessment Towards the future

The BINDT West of England Branch is holding its biennial Aerospace Event from 11-12 April 2018 at the BAWA Centre, Filton, Bristol. This is <https://events/events-upcoming?Results> 1 - 28 of 28 Learn about upcoming Engineering Events, Conferences and Student Competitions at ASME 2018 Pressure Vessels & Piping Conference. News and Events > News > TWI strengthens links with the Institution of Mechanical Engineers (IMechE) IIW Annual Assembly 2012 TWI publishes ground breaking developments for friction stir welding of .. Purpose-built pressure testing facility to be constructed at TWI Fusion reactor developers come Publications Awards . The event is organised by the British Institute of Non-Destructive Testing The latest developments in the design and application of conventional .
