

## Storm Surge (Requiem for the Rift King Book 2)

Kalen has escaped from Morinvale, but at a heavy price. Blind and crippled, the best hope for his people is for him to choose a new Rift King, forfeiting his life in the process. With his failure to broker peace between Kelsh and Danar, war is inevitable. For the first time in a thousand years, the Rift prepares to ride into battle. Choosing his successor is only the beginning of Kalens troubles: his Guardians have turned against the Code and Covenant. Instead of securing the Ascension of a new Rift King, theyre doing everything in their power to ensure Kalens survival, even if it means the destruction of the Six Kingdoms. To make matters worse, the skreed conjured in Morinvale arent just growing stronger. Theyre breeding, and they arent picky about what theyll eat.
