

## Rift Jump: Revised and Expanded Edition

A sinister threat is growing in the void between realities, and Michael Morrison has been recruited to stop it. Ripped from his own violent life, he is sent rift jumping to other worlds, seeking out the agents of the Dark and putting them to an end by any means necessary. After rescuing restless daydreamer Sara Theresea, Michael brings her along as he battles Civil War spaceships, sea serpents, superpowered humans, and even his own duplicate from a parallel timeline. But the darkness Michael fights is growing within him too, calling him to some dark destiny. If he is to change his fate, he must learn to love and let the Man in the Stetson guide him to become the warrior of the Light he was always meant to be.
