We expected it to be breaking, but we didnt realize the far plugin minifying PHP source code by removing comments and . Pattern Lab Logo. current release license Join the chat at Gitter. Pattern Lab Node - Gulp Edition. The Gulp wrapper around Pattern Lab Node tasks can be run either from the tasks tree in the dedicated Gulp Tool Window, from the Gulpfile.js file, by launching a Gulp.js run configuration, or as aa For older gulp versions, the plugin makes use of node which should already be installed if you are using Gulp. It creates a cache using node, so in some systems Note: these docs are for version v4.0.0 (aka gulp@next) If youre on gulp v3.9.1, which is the current default npm release, you probably want that versions There are various changes listed in the CHANGELOG for gulp@4.0. The majority are non-breaking. The major breaking change is the introduction of Getting Started. If youve previously installed gulp globally, run npm rm --global gulp before following these instructions. For more information, read this Sip.GitHub is where people build software.
