

Shadow Animals

Saul, who has lived his entire life on the edge of the Copperton Forest--known for its strange and unusual wildlife--knows little about what stalks him. He knows only that it is dark, and powerful, and unnamable--and that it has stolen his nine-year-old son, Ezzy, from him. Now he must travel into those ethereal woods, further upriver than he's ever gone, into a wondrous, yet surreal and nightmarish world unlike anything he's ever known, to recover his son from the shadows, if he can survive the journey... *Shadow Animals* is a nightmare journey into the realm of the fantastique. Deining's surreal narrative is a live wire of suspense that crackles with tension. Who'd have thought the gates of hell were hidden in the New Mexican wilderness? ~ Michael McBride, author of *Burial Ground* and *Fearful Symmetry*
