Buy Introduction to Biopsychology with MyPsychLab access card 9e (ISBN 9781292059297) if you need access to the MyLab as well, and save money on this brilliant resource. Delves into how the central nervous system governs behaviour. Introduction to Biopsychology, 9/e, introduces the study of the biology of behaviour; that is, the neural mechanisms of psychological processes in the central nervous system. This program combines biopsychological science and student-oriented discussion, interweaving the basics of this specialized field with clinical case studies and exploring the personal and social implications that arise. The author encourages interactive learning and creative thinking. His clear and engaging presentation makes the material personally and socially relevant to readers.
