

# Mayors Juvenal (two volume slipcased set) (Bristol Phoenix Press: Classic Editions) (v. 1 & 2)

This final edition of Mayors Juvenal, issued here in two hardback volumes (available separately or as a slip-cased set), should be an essential part of all professional Latinists reference libraries. Mayors commentary is comprehensive on details of life and thought in imperial Rome and on Latin diction. His long introduction, or advertisement sets an explosively volatile tone and his whole work reflects his passionate desire to save the modern world through classical wisdom.
