

## Real Men Eat Meat (Meat Eaters)

Real Men Eat Meat is an anecdotal cookbook. Most of the anecdotes are actually true. Some are bald-faced lies about men, meat and the excuses they fabricate to eat only the largest portions. It includes some of the classic guy cravings from chili, steaks, stews, fried turkeys, fish boils, one vegetable, one dessert and other afflictions that men understand or indulge at least on a primitive level. Meat dominates the theme the same way it should dominate the plate. The stories tend to be humorous although the slapstick of the behavior has more to do with the humor than jokes. There are also chapters on unique male cravings from hot peppers to clam chowder, and the sacred and secret ceremonies that mark these rituals and rights of passage. The recipes are proven and tested. Well, lets just say Ive made them a lot and watched many men eat them without complaint. I have always thought of their silence while eating as the greatest compliment. Ive learned a lot from many of them as well. Some are master chefs. Some just really know how to cook. For the record all the recipes are mine. Thats my story and Im stickin to it. Heres the Table of Contents if you got nothing else to read: Table of Contents Chapter 1 Hot Peppers and Other Poisons from the Nightshade Family Chapter 2 Clearing the Smoke on How to Smoke Fish Chapter 3 The Chowder Run Chapter 4 The Robinhood Feast Chapter 5 Fish Boils and Other Afflictions Chapter 6 Why Men Fry Turkeys Chapter 7 The Rocket Scientists Guide to Making Chili Chapter 8 The Great Brunswick Stew Debate Chapter 9 Sauce Alchemy Chapter 10 Grillin, Roastin, and Toastin Chapter 11 Chemistry, Physics and Creme Brule Chapter 12 Life Lessons in a Pot of Spaghetti Chapter 13 The Wild and Wonderful Barbecued Pork Shoulder
