

Rusted Memory: A Wanderers Tale (The Wanderers Tale Book 1)

Herein lie the journal pages of a bard cursed for his crimes against an angry god when the world was still new. He wandered these lands lifetime after lifetime, singing for his bed and supper, winning companionship with his songs and sharing tales with all who will listen of the things he witnessed on his endless travels. He is called Wanderer by the gods, for it is his punishment to walk until the end of days, never knowing the bond of friendship, the strength of family or the comfort of coming home. The people of Vennakrand know him as Morovio, and these are his tales. In Rusted Memory, Morovio discovers he is not alone in his curse, for there is another, an impossible relation who comes to exact vengeance for the very blood that flows in his veins. Contains an exclusive first look at the upcoming second tale in the series, Worse Things Than Death.
