

The Nameless Dwarf: The Complete Chronicles: Nameless Dwarf, Books 1-5

Red to the elbows with the blood of his people, the Nameless Dwarfs only desire is to save the ones who got away. The dwarves have gone! Thousands have been slaughtered in the blood-drenched streets of their ravine city by one of their own wielding a demonic axe. The survivors have fled beyond the mountains, heading into a realm haunted by the nightmares of a twisted god. When Nils Fargin, son of an underworld boss, is hired to find them, he travels with his client to seek the advice of a lowlife mage. With what he learns, he should have asked for more money. The trail leads them to the domain of the terrifying Ant-Man, who is rumored to eat the flesh of anyone refusing to pay his toll. And as if that wasn't enough, it turns out Nils' client is none other than the Nameless Dwarf, better known to his kind as the Ravine Butcher. The Nameless Dwarf is an epic tale of remorse and redemption that pits a whiskerless thief, a guilt-driven assassin, a consumptive wizard, and an amnesiac dwarf against the worst imaginings of a craven mind. But the companions bring troubles of their own, not least of which is an ancient grimoire that leads them inexorably toward a forest of tar and an evil that threatens the existence of an entire race. The last hope of the dwarves comes from the unlikeliest of sources: a mythical city beneath the waves, an axe from the age of heroes, and the Nameless Dwarf, in whose veins flows the blood of legends. The Nameless Dwarf: The Complete Chronicles contains all five books of the Chronicles of the Nameless Dwarf.

Eric said: There were four books in the Kindle series I downloaded. D. P. Prior is an The Nameless Dwarf Omnibus (Chronicles of the Nameless Dwarf, #1-3).
