At the height of his power, Gaius Julius Caesar becomes embroiled in a civil war in Egypt, where he finds himself enraptured by Cleopatra, the nation's golden-eyed queen. To do his duty as a Roman, however, he must forsake his love and return to the capital to rule. Though Caesar's grip on power seems unshakable, the political landscape is treacherous -- the returning hero has no obvious successor, and his legacy seems to be the prize for any man with the courage and cunning to fell Rome's laurelled leader. Caesar's jealous enemies masquerade as friends and scheme to oust the autocrat from power and restore true republican government to Rome. But as the plot races to its dramatic conclusion, it becomes clear that with the stakes this high, no alliance is sacred and no motives are pure.
