

# The Pale Shadow of Science

Two of Aldiss essay collections from the mid-1980s in one volume. In this warm, chatty, opinionated collection of essays, Brian Aldiss tells the reader a bit about his youth, holds forth on the position of science fiction within the literary and scientific worlds and reveals some of the processes at work in his own writing. This volume also includes the companion collection ...And the Lurid Glare of the Comet.
